Complaint of American Exhibitors terday afternoon by President McKinley, who, with Secretary Long and Private Secretary Cortelyou, called at the resi-dence of the rector, Monsignor County, and accompanied by him and Dr. Garrigan, the at the Paris Exposition.

Delegate Flynn, of Oklahoma, Informs the State Department That

Dennis T. Flynn, Delegate in Congress from Oklahoma, filed with the State Department yesterday a complaint that officials of the United States Government exhibit at the Paris Exposition compelled American exhibitors to pay money for the United States building. In Mr. Flynn's communication the name of no official is mentioned. The charges are generally that the exhibitors were obliged to pay amounts ranging from \$150 upward, to obtain concessions. Mr. Flynn's complaint will be brought to the attention of Ferdinand W. Peck, of Chicago, Commissioner General of the United States Government at the Exposition, and it is probable that Mr. Flynn will be asked to make a more explicit statement of the matter, with the names of the officials who are alleged to have sold the concessions.

Under the terms of the law providing for the appointment of a Commissioner General, Mr. Peck has absolute authority in regard to the allotment of floor space and granting of concessions generally in the United States Government building. This authority extends to the disbursement of the appropriation of \$1,596,000 for the purpose of the American Govern-ment exhibit, although he is obliged to submit certified statements of expenditures submit certified statements of expenditures to the State Department. A statement from Mr. Peck giving an account of his disbursements up to March 31 has been received by the Department, and forwarded to President McKinley. Vouchers submitted account for an expenditure of \$696,000 up to that time, but it is shown also that the actual expenditures were about \$800,000, as there is a balance of only about \$700,000 remaining to Mr. Peck's credit. Vouchers for these additional expenditures are expected in due course.

cre expected in due course.

With Mr. Peck in supreme control of the American exhibit and its administration the Government has no authority to compel him to remedy any irregularities that may have occurred. Of course, if he should decline to remedy the defects "Mr. President, the cross which surmounts our buildings is indicative of our
religious faith, and the flag which floats
to the breeze beside it is indicative of our
national spirit. We are Catholic, holding
our authority as an institution from the

Two complaints from intending American exhibitors at Paris were received at the State Department before the exposi-tion opened. They contended that they had been prevented from exhibiting on account of certain exactions. The State Department referred these cases to Mr. Peck, who entered into correspondence with the complainants, with the result that a satisfactory arrangement by which the exhibitors were given space was reached. Nothing more was heard of the matter by the State Departmen

I got a new conception there of the character of Judas. According to the passion play, Judas was the only business man among the apostles. He alone realized that when there is expense there must be corresponding income, and the drains of living expenses among the little hand de-pressed him sorely. Then the Jews came with the story that if Jesus were all right, he could come to no harm by being placed in their hands, and Judas, in turning over the Master to them would be serving to reveal the divinity of Christ. On the other hand, were Jesus an imposter it was Judas' duty to expose him. Thus tempted, the apostle accepted their thirty pieces of silver and pointed out the Christ to them with a kins. When he learned the result and found the Master crucined he went forth and hanged himself."

A number of prominent Episcopalian numbers were on the stage with Senator Depew, and a box swas generved for Bishop Safterlee. It is estimated that the profits of the lecture will be about \$400. The Third Regiment Gavalry Band furnished

has just been received by the Immigration Bureau. In the report of May 18 Mr.

Watchorn says in part: "Public sentiment is strongly influenced against the so-called 'invasion of Japs,' and by public meetings, newspaper criticisms, and discussions in the meetings of workingmen unions, the anti-Japanese sen-timent is being cultivated very thoroughly, and all political conventions, without re-gard to party, recently held on this coast and in adjacent States, have vigorously declared in favor of restricting or prohibiting Japanese immigration.

'To fully appreciate the difficulties under which the inspectors labor in conduct-

ing special enquiries one must needs be present at such hearing. The immigrants give their testimony with extreme reluctance and have evidently been thoroughly prepared for a vigorous test as to their right to admission into the United States."

Mr. Watchern says that he will at the Mr. Watchorn says that he will at the earliest possible date have the case of Bisbop, the contract labor importer, who is in jail in Tacoma, brought up in the United States court at Seattle.
